INDEPENDENT AUDITORS' REPORT

To the Board of Education of
MOC-Floyd Valley Community School District
Orange City, Iowa

We have audited the accompanying financial statements of the governmental activities, the business-type activity, each major fund, and the aggregate remaining fund information of the MOC-Floyd Valley Community School District as of and for the year ended June 30, 2006, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the MOC-Floyd Valley Community School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activity, each major fund, and the aggregate remaining fund information of MOC-Floyd Valley Community School District as of June 30, 2006 and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 30, 2006 on our consideration of the MOC-Floyd Valley Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The management's discussion and analysis and budgetary comparison information are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise MOC-Floyd Valley Community School District's basic financial statements. The financial statements for the three years ended June 30, 2005, (none of which are presented herein) were audited by us or other auditors in accordance with the standards referred to in the second paragraph of this report

and had unqualified opinions expressed on them. The supplementary information, included in Schedules 1 through 7 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statements taken as a whole.

MOC-FLOYD VALLEY MANAGEMENT DISCUSSION AND ANALYSIS

MOC-Floyd Valley School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2006. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2006 FINANCIAL HIGHLIGHTS

General fund revenues increased from \$9,688,463 in fiscal 2005 to \$10,101,040 in fiscal 2006, while General fund expenditures increased from \$9,318,081 in fiscal 2005 to \$9,973,438 in fiscal 2006. The District's General fund balance increased from \$520,809 in fiscal 2005 to \$642,411 in fiscal 2006, a 23% increase.

The increase in General fund revenues was attributable primarily to an overall increase in property taxes, and an increase in the income surtax from the instructional support levy in fiscal 2006. The increase in expenditures was due primarily to an increase in the negotiated salaries and benefits.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Assets and a Statement of Activities. These provide information about the activities of MOC-Floyd Valley Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report MOC-Floyd Valley Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds.

Notes to financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year.

Other Supplementary Information provides detailed information about the non-major Special Revenue Funds, Capital Project Funds, and Debt Service Fund.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

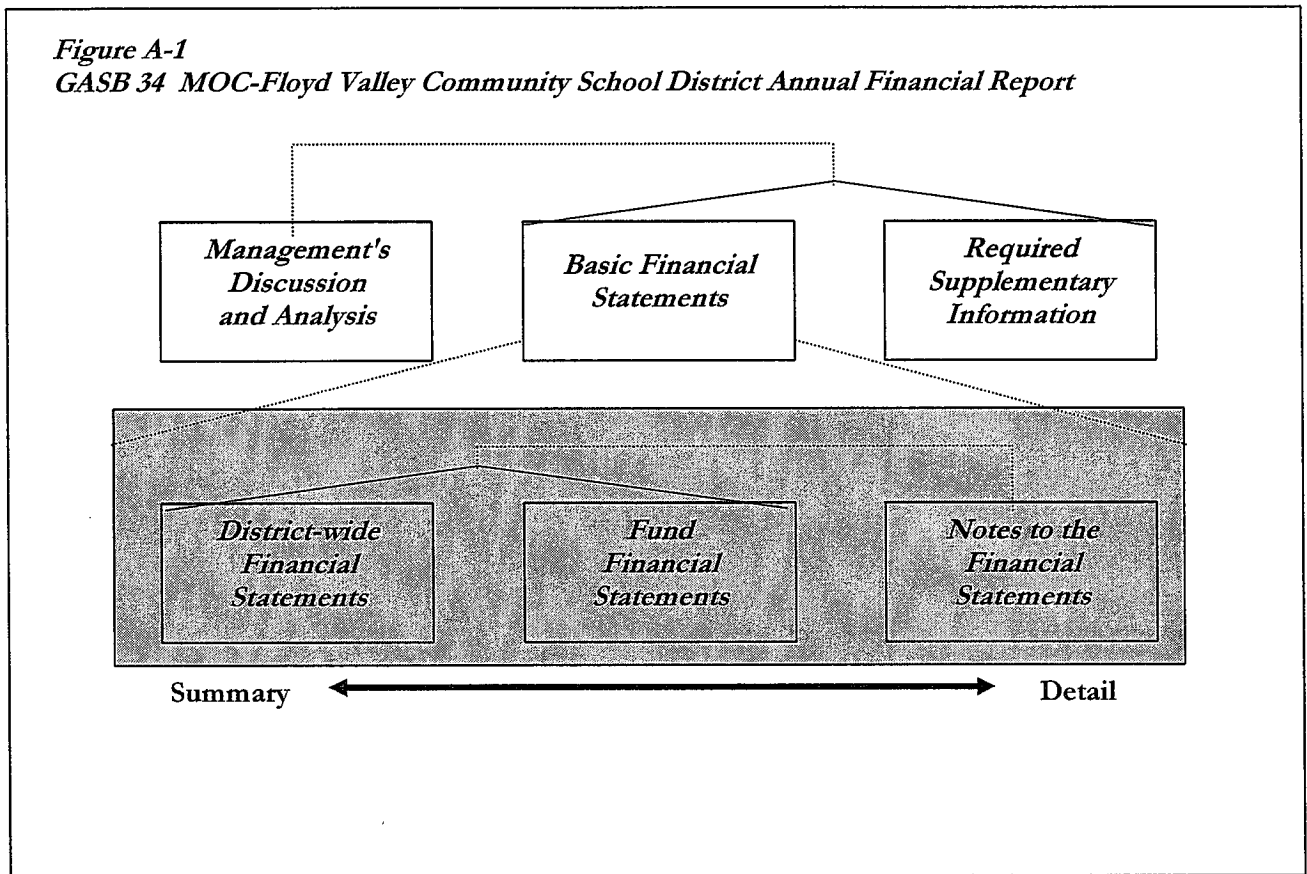

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain.

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net assets and how they have changed. Net assets – the difference between the District's assets and liabilities – are one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net assets are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The District has three kinds of funds:

- 1) *Governmental Funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, Special Revenue Funds, Debt Service Fund and Capital Project Funds.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

- 2) *Proprietary Funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business type activities, but provide more detail and additional information, such as cash flows. The District currently has one Enterprise Fund, the School Nutrition Fund.

The required financial statements for proprietary funds include a statement of revenues, expenses and changes in fund net assets and a statement of cash flows.

- 3) *Fiduciary Funds:* The District is the trustee, or fiduciary, for assets that belong to others. The District's only fiduciary fund is an agency fund for the District's flex cafeteria plan for employees. The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes this activity from the government-wide statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds includes a statement fiduciary net assets and a statement of changes in fiduciary net assets.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Figure A-3 below provides a summary of the District's net assets at June 30, 2006 and 2005.

The District's combined net assets increased by nearly 19%, or approximately \$1,170,000, over the prior year. The largest portion of the District's net assets is the invested in capital assets, less the related debt. The debt related to the investment in capital assets is liquidated with sources other than capital assets.

Restricted net assets represent resources that are subject to external restrictions, constitutional provisions, or enabling legislation on how they can be used. The District's restricted net assets increased approximately \$400,000 or approximately 125% from the prior year. The increase was primarily a result of decreased capital expenditures in the Physical Plant and Equipment fund, as budgeted.

Unrestricted net assets – the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – increased approximately \$528,000 or 19%.

Figure A-4 shows the change in net assets for the year ended June 30, 2006 and 2005.

Property tax, local option sales tax, and unrestricted state grants account for 76% of the total revenue. The District's expenses primarily relate to instruction and support services, which account for 93% of the total expenses.

Governmental Activities

Figure A-5 presents the cost of four major district activities: instruction, support services, non-instructional, and other. The table also shows each activity's *net cost* (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial impact placed on the taxpayers by each function.

- The cost financed by users of the District's programs was \$764,547.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$1,484,151. This includes a contribution from the City of Orange City in the amount of \$235,000 for a jointly owned Wellness Facility, located within the new addition at the high school.
- The net cost of governmental activities was financed with \$5,424,863 in property and other taxes and \$4,300,440 in unrestricted state grants.

Business Type Activities

Revenues of the District's business type activity (school food and nutrition services) were \$481,275 and expenses were \$483,593. (Refer to Figure A-4.) Revenues of this activity were comprised of charges for service, federal and state reimbursements and investment income.

INDIVIDUAL FUND ANALYSIS

As previously noted, MOC-Floyd Valley Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported a combined fund balance of \$1,482,308, ahead of last year's ending fund balances of \$568,313. The increase is largely due to the District having the cash on hand to pay off the balance of the building construction expenses.

Governmental Fund Highlights

- The District's improved General Fund financial position is the result of the implementation of the instructional support levy income surtax.
- The June 2005 fiscal balance of \$178,521 in the PPEL fund increased significantly in June 2006 to \$538,014. The increase was due to the issuance of \$950,000 in Capital Loan Notes. Most of this balance will be used to pay remaining construction expenses.

- The Capital Project LOST Fund balance increased from a negative \$263,209 in fiscal 2005 to a positive of \$126,787 in fiscal 2006. This increase is due to a contribution from the City of Orange City in the amount of \$235,000 for a jointly owned Wellness Facility.

Proprietary Fund Highlights

The School Nutrition Fund net assets decreased from \$111,313 at June 30, 2005 to \$119,170 at June 30, 2006. The increase was due primarily to a contribution of capital assets.

BUDGETARY HIGHLIGHTS

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following a required public notice and hearing. The budget may be amended during the year utilizing statutorily prescribed procedures. The District's budget is prepared on the cash basis. During the year, expenditures did not exceed the certified amounts. Detail can be found in the supplementary information section of this report as required.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2006, the District had invested \$19,095,746 in a broad range of assets, including school buildings, athletic facilities, computer and audio-visual equipment, and administrative offices. (See Figure A-6). More detailed information about capital assets can be found in Note 6 to the financial statements. Total depreciation expense for the year was \$379,644.

The largest changes in capital asset activity during the year occurred in the construction in progress category. The District is nearing completion of a high school addition and remodeling project.

Long-Term Debt

At year end, the District had \$1,285,000 in general obligation bonds outstanding, \$4,500,000 in LOST revenue bonds outstanding, \$30,660 in lease obligations, and \$30,226 in early retirement obligations. This is an increase of \$3,142,056 from the prior year. The increase is due to the issuance of additional \$2,835,000 in LOST revenue bonds and \$950,000 in PPEL Capital Loan Notes to finance the high school addition and remodeling project. Additional

information about the District's long-term debt is presented in Note 7 to the financial statements.

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- The District will see an increase of 6.9 students for 2006-2007 which will positively affect the 2007-2008 budget.
- There continues to be considerable economic expansion beginning in the Alton/Orange City area with the Highway 60 by-pass project, the building of a new \$30 million hospital in Orange City, the expansion of Med-Tech, Advanced Brands, and Revival Animal Health Incorporated.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Leann Evenhuis, District Secretary/Treasurer and Business Manager, MOC-Floyd Valley Consolidated School District, 1301 8th Street SE, Orange City Iowa 51041.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2006**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds (page 18)	\$ 913,995
--	------------

Governmental funds report capital outlays, including infrastructure, as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Capital outlays exceeded depreciation expense in the current year as follows:

Expenditures for capital assets	\$ 3,769,748	
Depreciation expense	<u>(372,219)</u>	3,397,529

Accrued interest expense that does not require current financial resources.	3,806
---	-------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues.	2,133
---	-------

Internal service funds are used by management to fund and maintain the District's health insurance provided to user departments. The net revenue of the internal service funds is reported with governmental activities.	(4,936)
--	---------

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:

Early retirement	13,515
------------------	--------

The effect of bond issuance costs when new debt is issued, whereas, these amounts are deferred and amortized in the Statement of Activities.	5
--	---

The issuance of indebtedness provides current financial resources to the governmental funds without affecting net assets. The statement of activities does not reflect the proceeds from the issuance of long-term debt. The proceeds from the issuance of long-term debt was as follows:

LOST revenue bonds	(2,835,000)	
GO capital loan notes	<u>(950,000)</u>	(3,785,000)

The repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets. The principal paid on long-term debt during the current year was as follows:

Bonds payable	600,000	
Lease obligations payable	<u>20,070</u>	<u>620,070</u>

Change in net assets of governmental activities (page 15)	<u><u>\$ 1,161,117</u></u>

MOC-FLOYD VALLEY COMMUNITY SCHOOL DISTRICT
Notes to the Financial Statements
June 30, 2006

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The MOC-Floyd Valley Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve and special education pre-kindergarten. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the cities of Maurice, Orange City, Alton, Hospers, Newkirk and Granville, Iowa, and the predominate agricultural territory in Sioux and O'Brien Counties in Iowa. The district is governed by a Board of Education whose members are elected on a non-partisan basis.

A. Reporting Entity

For financial reporting purposes, MOC-Floyd Valley Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the District. MOC-Floyd Valley Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

These financial statements have been prepared in conformity with U.S. Generally Accepted Accounting Principles (GAAP) that apply to governmental units. All funds created under the authority of the State Code of Iowa, the operations of which are under the control of the District's governing body, and by financial reporting standards for governmental units are included herewith.

The Governmental Accounting Standards Board is responsible for establishing U.S. GAAP for state and local government through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. The District applies only the applicable FASB pronouncements issued prior to November 30, 1989 in accounting and reporting its proprietary operations. The more significant accounting policies established in U.S. GAAP and used by the District are discussed below.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Sioux County Assessor's Conference Board.

B. Basic Financial Statements- Government-Wide Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The District's general, special revenue, debt service and capital project funds are classified as governmental activities. The District's school nutrition fund is classified as a business-type activity. The District's internal service fund is classified as a governmental-type activity.

In the government-wide Statement of Net Assets, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-

Notes to the Financial Statements
June 30, 2006

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

term debt and obligations. The District's net assets are reported in three parts – invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets. The District first uses restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions and business-type activities. The functions are also supported by general government expenses (including depreciation) by related program revenues, operating grants, and capital grants. Program revenues must be directly associated with the function or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The District does not allocate indirect costs. Certain expenses of the District are accounted for through an internal service fund on a cost-reimbursement basis.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net assets resulting from the current year's activities.

C. Fund Financial Statements

The District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. Funds are classified into three types: governmental, proprietary and fiduciary. The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column in the fund financial statements. GASB No. 34 sets forth minimum criteria for the determination of major funds. The various funds reported in the financial statements are grouped into fund types as follows:

GOVERNMENTAL FUND TYPES

Governmental funds are those through which most governmental functions of the District are financed. The acquisition, use and balances of the District's expendable financial resources and the related liabilities, except those accounted for in proprietary funds, are accounted for through governmental funds. The measurement focus is on determination of financial position and changes in financial position, rather than upon net income determination. The following is a description of the governmental funds of the District.

General Fund – The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund accounts for the instructional and most of the support service programs of the District's operations. Revenue of the General Fund consists primarily of local property taxes and state government aid.

Special Revenue Fund – Special Revenue Funds account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted for specified purposes. Each of the District's Special Revenue Funds has been established to reflect restricted revenue sources provided to school districts by the Iowa State Statutes.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Debt Service Fund – The Debt Service Fund accounts for the accumulation of resources for and the payment of general long-term debt principal and interest.

Capital Projects Fund – Capital Project Funds account for all resources used in the acquisition and construction of capital facilities.

PROPRIETARY FUND TYPES

The focus of proprietary fund measurement is upon determination of operating income, changes in net assets, financial position, and cash flows. Operating revenues and expenses are distinguished from non-operating revenues and expenses. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The principal operating revenues of enterprise funds are charges to customers for services. Operating expenses consist of cost of sales and services, administrative expenses and depreciation on capital assets. The U.S. generally accepted accounting principles used are those applicable to similar businesses in the private sector.

Enterprise Funds – Enterprise Funds are used to account for operations: (a) which are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenue earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Internal Service Funds – Internal Service Funds account for operations that provide services to other departments or agencies of the government, or to other governments on a cost-reimbursement basis.

The District's internal service fund is presented in the proprietary fund financial statements. Because the principal users of the internal services are the District's governmental activities, the financial statements of the internal service fund are consolidated into the governmental activities column when presented in the government-wide financial statements. To the extent possible, the cost of these services is reported in the appropriate functional activity.

A description of the District's internal service fund is as follows:

Split-Funding Health Insurance – To account for the funding and maintenance of the District's partial self-funded health insurance provided to District employees.

FIDUCIARY FUND TYPE

Fiduciary Funds are used to report assets held in an agency or custodial capacity for others and therefore are not available to support District functions. Since agency funds are custodial in nature, they do not involve the measurement of results of operations and are not incorporated into the government-wide financial statements. The following is the District's fiduciary fund:

Agency Fund – The Flex account is the District's cafeteria plan. Employees of the District deposit monies into this fund, which are held by the District until they are disbursed back to the depositor.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The District reports the following major governmental funds:

General Fund – See the description on the previous page. The General Fund is always considered to be a major fund.

Capital Project LOST – To account for the collection of a 1% school local sales and services tax to be expended for school infrastructure needs and property tax relief.

Physical Plant and Equipment Levy – To account for a regular property tax levy and a special voted property tax levy per thousand dollars of assessed valuation in the District for use in the purchase of equipment and repairing and improving schoolhouse buildings and grounds.

The District reports the following major enterprise funds:

School Nutrition – Accounts for the food service operations of the District.

D. Basis of Accounting/Measurement Focus

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year-end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financial sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the balance sheet:

Cash, Pooled Investments and Cash Equivalents – The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust, which is valued at amortized cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2004 assessed property valuations; is for the tax accrual period July 1, 2005 through June 30, 2006 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2005.

Due from Other Governments – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories – Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets – Capital assets, which include property, furniture and equipment, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of \$2,000 for governmental capital assets and \$500 for school nutrition capital assets.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives (In Years)</u>
Buildings	50 years
Improvements other than buildings	20-50 years
Furniture and equipment	5-15 years

Salaries and Benefits Payable – Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Deferred Revenue – Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of unspent grant proceeds as well as property tax receivable and other receivables not collected within sixty days after year end, excluding grant receivables.

Deferred revenue in the Statement of Net Assets consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Long-Term Liabilities – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Assets.

Fund Equity – In the governmental fund financial statements, reservations of fund balance are reported for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

Restricted Net Assets – In the government-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

NOTE 2 – CASH AND POOLED INVESTMENTS

The District's deposits in banks at June 30, 2006 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

NOTE 2 – CASH AND POOLED INVESTMENTS – (CONTINUED)

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies, certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2006, the District had investments in the Iowa Schools Joint Investment Trust as follows:

	Amortized Cost
Guaranteed Interest Contract	<u>\$ 449,375</u>

The investments are valued at an amortized cost pursuant to Rule 2a-7 under the Investment Company Act of 1940.

Credit Risk – The investments in the Iowa Schools Joint Investment Trust were rated Aaa by Moody's Investors Service.

NOTE 3 – INTERFUND TRANSFERS

The detail of short-term interfund transfers for the year ended June 30, 2006 is as follows:

Transfer To	Transfer From	Amount
Special Revenue:		
Student Activity	General	\$ 6,000
Debt Service Fund	Capital Project LOST	<u>740,073</u>
Total		<u>\$ 746,073</u>
Proprietary – School Nutrition	Governmental Activities	<u>\$ 8,700*</u>

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

*Transfer was recorded to account for capital assets purchased by the general fund and transferred to the School Nutrition Enterprise Fund.

NOTE 4 – DUE FROM AND DUE TO OTHER FUNDS

The detail of short-term interfund receivables and payables at June 30, 2006 is as follows:

Receivable Fund	Payable Fund	Amount
	Special Revenue:	
General Fund	Management	<u>\$ 5,279</u>

The purpose of the interfund balance is to help finance the short-term cash shortage in the Management Fund.

NOTE 5 – IOWA SCHOOL CASH ANTICIPATION PROGRAM (ISCAP)

The District participates in the Iowa School Cash Anticipation (ISCAP). ISCAP is a program of the Iowa Association of School Boards and is designed to provide funds to participating entities during periods of cash deficits. ISCAP is funded by a semi-annual issuance of anticipatory warrants, which mature as noted below. The warrant sizing of each school corporation is based on a projection of cash flow needs during the semi-annual period. ISCAP accounts are maintained for each participating entity, and monthly statements are provided regarding their cash balance, interest earnings and amounts available for withdrawal for each outstanding series of warrants. Bankers Trust Co. NA is the trustee for the program. A summary of the District's participation in ISCAP at June 30, 2006 is as follows:

Series	Warrant Date	Final Warrant Maturity	Investments	Accrued Interest Receivable	Warrants Payable	Accrued Interest Payable
2006-07A	6/28/06	6/28/07	\$ 449,375	\$ 140	\$ 450,000	\$ 111

The District pledges its state foundation aid payments and General Fund receipts as security for warrants issued. Repayments must be made when General Fund receipts are received. If a balance is outstanding on the last date the funds are available to be drawn, then the District must repay the outstanding withdrawal from its General Fund receipts. In addition, the District must make minimum warrant repayments on the 25th of each month immediately following the final date that the warrant proceeds may be used in an amount equal to 25% of the warrant amount. ISCAP advance activity in the General Fund for the year ended June 30, 2006 is as follows:

Series	Balance Beginning of Year	Advances Received	Advances Repaid	Balance End of Year
2005-06A	\$ -	\$ 50,000	\$ 50,000	\$ -

The warrants bear interest and the available proceeds of the warrants are invested at the interest rates shown below:

Series	Interest Rates on Warrants	Interest Rates on Investments
2005-06A	4.0%	3.9%
2006-07A	4.5%	5.676%

Advance and Current Refundings

On July 1, 2001, the District issued \$1,510,000 general revenue refunding bonds with interest rates ranging between 3.80 percent and 4.20 percent. The District issued the bonds to advance refund \$1,480,000 of the outstanding 1992 series general obligation bonds with interest rates ranging between 6.35 and 6.90 percent. The District used the net proceeds to purchase U.S. government securities, which were deposited in an irrevocable trust. On June 1, 2002, these securities were sold and the proceeds used to retire the 1992 series general obligation bonds. The advance refunding reduced total debt service payments over the next 5 years by nearly \$58,000. This resulted in an economic gain of \$52,000.

Revenue Bonds

The local option sales and services tax revenue bonds were issued for the purpose of defraying a portion of the cost of school infrastructure. The bonds are payable solely from the proceeds of the local option sales and services tax revenues received by the District. The bonds are not a general obligation of the District.

The resolution providing for the issuance of the local option sales and services tax revenue bonds includes the following provisions:

1. All proceeds from the local option sales and services tax shall be placed in a Revenue Account.
2. Monies in the Revenue Account shall be disbursed to make deposits into a Sinking Account to pay the principal and interest requirements each month of the fiscal year. The Sinking Account is shown as a restricted asset in the Capital Project LOST fund.
3. Any monies remaining must be used to pay or redeem the Bonds.

The District was in compliance with all of the provisions during the year ended June 30, 2006.

Revenue bonds as of June 30, 2006 are as follows:

<u>Purpose</u>	<u>Interest Rates</u>	<u>Amounts</u>

Early Retirement

The District offers a voluntary early retirement plan to its certified employees. Teachers and administrators who have 10 years of continuous service with the former districts and/or the new District are eligible for Board approved early retirement compensation. Employees making application for early retirement receive as compensation an amount equal to the difference between the applicant's current salary schedule amount and that year's base pay if the application for early retirement is submitted during a period beginning with the fiscal year before the teacher attains age 55 through the fiscal year in which the teacher attains the age 65. After age 65, no early retirement compensation is available. Part-time teachers receive a percentage of the benefit. Early retirement benefits paid during the year ended June 30, 2006, totaled \$44,654. The cost of early retirement payments liquidated within 60 days is recorded as a liability of the Special Revenue, Management Levy Fund, in the fund financial statements. The non-current portion of the early retirement is recorded in the government-wide financial statements.

NOTE 8 – PENSION AND RETIREMENT BENEFITS

The District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits that are established by State statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa 50306-9117.

Plan members are required to contribute 3.70% of their annual covered salary and the District is required to contribute 5.75% of annual covered payroll for the years ended June 30, 2006, 2005, and 2004. Contribution requirements are established by State statute. The District's contribution to IPERS for the years ended June 30, 2006, 2005, and 2004 were \$360,007, \$336,688, and \$336,137 respectively, equal to the required contributions for each year.

NOTE 9 – RISK MANAGEMENT

MOC-Floyd Valley Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE 10 – AREA EDUCATION AGENCY

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$436,066 for the year ended June 30, 2006 and is recorded in the General Fund.

NOTE 11 – DEFICIT FUND BALANCE

As of June 30, 2006, the following funds had a deficit fund balance in the amounts showing:

Special Revenue:	
Management	<u>\$ (17,931)</u>

The deficit will be funded through future property tax revenue.

NOTE 12 – SPLIT FUNDING HEALTH INSURANCE PLAN

The District's Split Funding Health Insurance Fund was established to account for the partial self-funding of the District's prescription drug benefit plan. The plan is funded by District contributions and is administered through a service agreement with Three Rivers Benefit Corporation. The agreement is subject to automatic renewal provisions. The District assumes liability for co-pay amounts of \$5 to \$20 depending on the coverage selected by the employee.

Monthly payments of service fees and plan contributions to the District's Split Funding Health Insurance Fund are recorded as expenditures from the operating funds. Under the administrative services agreement, monthly payments of service fees and claims are paid from the Split Funding Health Insurance Fund. The District records the plan assets and related liabilities of the Split Funding Health Insurance Fund as an Internal Service Fund.

MOC-FLOYD VALLEY COMMUNITY SCHOOL DISTRICT
Notes to Required Supplementary Information – Budgetary Reporting
June 30, 2006

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds, except the internal service fund and the agency fund. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the cash basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functional areas, not by fund or fund type. These four functional areas are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents functional area expenditures or expenses by fund, the legal level of control is at the aggregated functional area level, not at the fund or fund type level. This level of control is at a level higher than the individual fund. It is necessary, therefore, to aggregate the expenditures of governmental fund types with expenses of proprietary fund types on a functional area basis and to compare such functional area totals to functional area budgeted totals in order to demonstrate legal compliance with budget. The Code of Iowa also provides that District disbursements in the General Fund may not exceed the amount authorized by the school finance formula. During the year ended June 30, 2006, the District adopted one budget amendment increasing budgeted disbursements by \$1,413,051.

As noted previously, the actual results of operations are presented in accordance with generally accepted accounting principles, which differ in certain respects from those practices used in the preparation of the 2005-2006 budget. For purposes of preparing the budget comparison above, the actual expenses have been adjusted to the cash basis, which is consistent with the District's budgeted expenditures/expenses. The adjustments required to convert the expenses/expenditures to cash basis at the end of the year are as follows:

FOR THE YEAR ENDED JUNE 30, 2006**

Schedule 7

Part I: Summary of the Independent Auditor's Results

- (a) An unqualified opinion was issued on the financial statements.
- (b) Reportable conditions in internal control over financial reporting were disclosed by the audit of the financial statements, including a material weakness.
- (c) The audit did not disclose any non-compliance, which is material to the financial statements.

MOC-FLOYD VALLEY COMMUNITY SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2006

Schedule 7 (Continued)

Part II: Findings Related to the Financial Statements:

INSTANCES OF NON-COMPLIANCE:

No matters were reported.

There were no prior year audit findings.

REPORTABLE CONDITIONS:

II-A-06 Financial Accounting – Segregation of Duties

- A. Comment – One important aspect of internal control is the segregation of duties among employees to prevent an individual from handling duties, which are incompatible. Incompatible duties, for accounting control purposes, are those duties that place a person in a position where they could both perpetuate and conceal errors or fraud. In performing our audit, we noted that one person has primary responsibility for many accounting and financial duties of the District.

Recommendations – The size of the District's accounting and administrative staff precludes certain internal controls that would be preferred if the staff were large enough to provide optimum segregation of duties. This situation dictates that the Board of Education and Superintendent remain actively involved in the financial affairs of the District to provide oversight and review functions. In addition, the District should periodically review the operating procedures and make changes as necessary to obtain the maximum internal control under the circumstances.

Response – District administration understands the nature of the weakness and the necessity for the Board and Superintendent to provide oversight and review functions. We will continue to review procedures of the District and make changes as deemed necessary and practical.

Conclusion – Response accepted.

Part III: Other Findings Related to Statutory Reporting:

- III-A-06 Certified Budget – Disbursements for the year ended June 30, 2006 did not exceed amounts budgeted.
- III-B-06 Questionable Disbursements – No disbursements were noted that they may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.
- III-C-06 Travel Expense – No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
- III-D-06 Business Transactions – Business transactions between the District and District Officials are detailed as follows:

Name, Title and Business Connection	Transaction Description	Amount
Gerald Van Roekel, Board Member Part-owner of Van Engelenhoven Agency	Insurance	\$108,965

This transaction may represent a conflict of interest and the District should contact legal council for determination.

- III-E-06 Bond Coverage – Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.
- III-F-06 Board Minutes – No transactions requiring Board approval which had not been approved by the Board were noted.
- III-G-06 Certified Enrollment – No variances in the basic enrollment data certified to the Department of Education were noted.
- III-H-06 Deposits and Investments – No instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy were noted.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE AND ON
INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON
AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Education of the
MOC-Floyd Valley Community School District

We have audited the financial statements of the governmental activities, the business-type activity, each major fund, and the aggregate remaining fund information of MOC-FLOYD VALLEY COMMUNITY SCHOOL DISTRICT as of and for the year ended June 30, 2006, which collectively comprise the District's basic financial statements as listed in the table of contents, and have issued our report thereon dated August 30, 2006. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance:

As part of obtaining reasonable assurance about whether the MOC-Floyd Valley Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part III of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2006 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes. Prior year statutory comments have all been resolved.

Internal Control Over Financial Reporting:

In planning and performing our audit, we considered MOC-Floyd Valley Community School District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. However, we noted a certain matter involving the internal control over financial reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect MOC-Floyd Valley Community School District's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements. The reportable condition is described in Part II of the accompanying Schedule of Findings and Questioned Costs as item II-A-06.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be

material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe II-A-06 is a material weakness.

This report, a public record by law, is intended solely for the information and use of the board of education, management, employees and citizens of MOC-Floyd Valley Community School District and other parties to whom the MOC-Floyd Valley Community School District may report. This report is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of MOC-Floyd Valley Community School District during the course of our audit. If you have any questions concerning any of the above matters, we would be pleased to discuss them with you at your convenience.
